Petronius**THE SATYRICON****Translated, with an Introduction,
by William Arrowsmith**

NOTES 246 PAGES \$1.95

NERO'S ROME, caught by the satiric genius of its most cultured cynic: Petronius. *THE SATYRICON* is a classic of the comic imagination, portraying men who live by their wits and other men's purses. They twit the scholars with genial irreverence, they offend the priestesses—and make interesting atonement. Petronius turns every weakness of flesh and foible of mind to laughter, and his pungent idiom is brilliantly captured in this new translation by William Arrowsmith.

Leo Tolstoi**SEBASTOPOL****Introduction by Philip Rahv**

272 PAGES \$1.95

During the siege of the Russian town of Sebastopol in 1854, in a bomb-proof dugout scarcely two hundred yards away from the enemy lines, the young nobleman Leo Tolstoi, when not directing the fire of his battery, began these brilliant sketches of war. An early work which anticipates *Anna Karenina* and *War and Peace*, *SEBASTOPOL* presents a picture of the battlefield whose implications are as valid today as they ever were. For, as Tolstoi states, Truth is the hero of his tale.
